HEAT PUMPS

Our range of domestic Air Source Heat Pumps from the world's largest HVAC manufacturers offer assured performance and are fully MCS certified and RECC warrantied.

Our specialised team are here to assist with each step of the heat pump installation process. From heating system design and technical assessment, heat pump cylinder selection, guidance and assistance on UK Government incentives to final commissioning.

£7500 Boiler Upgrade Scheme

- Voucher only available to qualifying installers
- Access UK Government incentives and schemes including 0% VAT on heat pump
- A++++ high efficiency system
- Low to zero carbon solution
- Reduced energy bill costs
- Ideal for both new build and retro fit projects
- Perfect heat source for underfloor heating systems
- Simple installation process
- Whisper quiet
- Excellent track record and trusted performance
- Future proof heating system
- Full range of compatible DHW Cylinders also available.

ECO-FRIENDLY SCREED SOLUTIONS

WHY CHOOSE ANHYDRITE FLOW SCREED?

Save Money and Improve Efficiency

- Lower running costs and reduced CO₂ emissions.
- Up to 25% improvement in heating performance.
- Heat Input Temperature can be reduced by up to 10°C.
- For every 1°C reduction = 80kg of carbon saved.
- Assured for lifetime of building.

Screed can be laid thinner than sand and cement screeds

- 25-50% reduction in material use.
- Faster and more responsive controllable heating.
- Scope to increase U-Values & increase insulation.
- Environmentally sustainable method of heating.

Our Screed Solutions Include:

- Thermal Screed: For UFH with high level of thermal conductivity.
- Faster Drying Screed: Quicker drying variant.
- High Rise Screed: For buildings over twelve stories.
- High Strength: Screed For areas with higher point loads.
- Timber Floor Screed: For use with acoustic and timber flooring.
- Steel Deck Screed: Super Lightweight for use with Lewis Deck and on lightweight steel.
- Thin Section Screed: Where weight or low ceiling height is a problem.
- Standard Screed: General Purpose for most applications.
